highly breathable,
abrasion resistant
side panels

Rubber lug outsole

Speed laces

Waterproof,
breathable
GORE-TEX®
barrier

MARINE CORPS RUGGED ALL-TERRAIN (RAT) BOOT WITH GORE-TEX® FABRIC

The Marine Corps Rugged All-Terrain (RAT) Boot is a superior blend of comfort, protection, and durability.

At its core is a GORE-TEX® lining that provides a durable waterproof and breathable barrier. Water and outside liquids are blocked without the need for “waterproofing” polish or waxes. The lining also resists perspiration and contaminants like petroleum, oils, and lubricants.

The GORE-TEX® lining breathes to allow perspiration to escape. This helps to prevent overheated feet or issues caused by excessive perspiration build up in side the boot. The outsole, and polyurethane midsole give you excellent shock absorbency and traction on even the roughest terrain. The full-grain nubuc leather, stitchdown construction and abrasion resistant heel and toe guards provide durability and wear-resistance even under the harshest conditions.

For more than 30 years, W. L. Gore & Associates, Inc. has developed high-performance fabrics that withstand the harsh environments military, law enforcement, fire and rescue professionals encounter on their missions. Gore combines research in the fundamental science of fluoropolymers with a thorough understanding of the challenges these professionals face to engineer durable protective fabrics. After extensive laboratory testing and field trials, Gore stands behind these fabrics, ensuring that each product does what we say it will do.

PERFORMANCE ENHANCING DESIGN FEATURES

- 100% Waterproof & Breathable
- Long-wearing wicking lining absorbs perspiration, dries quickly, and resists odor and mildew.
- Highly breathable upper combines fabric and leather for shorter break-in time vs typical all leather boots.
- Enhanced lacing system with speed-lace eyelets that lace to the toe.
- Shock absorbing cushioned outsole
- Abrasion resistant heel and toe guards
- Non-marking outsole resists contamination by jet fuel and oil
- U.S.M.C. approved. EGA insignia
